# IN MEMORIAM.

---

## REV. GEORGE DANIEL GOTWALD

Was born at Shippensburg, Pa., September 18th, 1862. He was the second son of Rev. Prof. L. A. Gotwald, D. D., of Wittenberg Theological Seminary at Springfield, Ohio. His grandfather was also a Lutheran minister. He received his classical and theological education at Gettysburg, Pa., graduating from the College in 1882, and from the Seminary in 1885. He at once took charge of the Lutheran church in Salina, Kansas, where he labored with great success for three years. In November 1888 he was called to the Memorial Lutheran church of Kansas City, Mo., where he had just completed a year of most prosperous service when he was stricken with the disease which terminated his life on Sunday evening January 12th, 1890.

But few men, at so early an age, have made so deep an impression or secured for themselves so large a place in the church as he had. At the time of his death Mr. Gotwald was the Secretary of the Kansas Synod and a member of some of its most important committees. He was also a member and the Secretary of the Board of Trustees of Midland College, and he had just been engaged by the publishers of the *Lutheran Evangelist* to take charge of a Western Department of that journal. He had also become widely known in the church for his many noble charities and generous gifts to worthy enterprises.

But his name and memory will be longest known and cherished as a friend and benefactor of Midland College. Devoted to its interests in life, after his death his will was found to contain a provision bequeathing \$24,000 to the College for the endowment of the Presidency. This amount has since been paid over to the Board of Trustees, and the Presidency will hereafter be known as "The Presidency and George Daniel Gotwald Professorship of Mental and Moral Sciences."

THE MEMORY OF THE JUST IS BLESSED.

# FACULTY.

---

REV. JACOB A. CLUTZ, D. D.,

*President and George Daniel Gotwald Professor of Mental and Moral Sciences.*

REV. W. H. WYNN, Ph. D.,

*Professor of English Literature and History.*

REV. J. HOWARD STOUGH, Ph. D.,

*Professor of Greek and Latin Languages and Literature.*

E. B. KNERR, Sc. D.,

*Professor of Mathematics and Natural Sciences.*

MISS ANTONIE SUSANBETH,

*Instructor in German and French Languages.*

MRS. ELLA C. BEEGLE,

*Principal of the Academic Department*

MISS NEALIE D. MILNER,

*Instructor in Piano and Vocal Culture.*

MISS ANTONIE SUSANBETH,

## COURSES OF STUDY.

---

As will be seen from the foregoing Outlines of Study, three full courses of study are presented to the student from which he can select the one preferred.

### THE CLASSICAL COURSE.

This is the standard college course which has stood the test of time and experience. By a liberal culture in the languages and literature of both the past and the present, as well as in mathematics and the practical sciences, it aims to develop all the faculties of the mind, and to prepare those who pursue it for any subsequent professional or special lines of study.

### THE SCIENTIFIC COURSE.

This course has been arranged to meet the wants of those who do not wish to devote so much time to the ancient languages. As will be seen from the curriculum much time is given to laboratory work, and every effort will be made to make the course thorough and practical.

Students pursuing this course will be charged \$3.00 per term extra, during the Junior and Senior years, for the use of chemicals. They will also be expected to replace, or pay for, any articles of glassware, or other apparatus for individual use, that may be broken or otherwise injured.

### THE LITERARY COURSE.

This course has been arranged with special reference to young ladies, and others, who may wish to give more attention to the modern languages and literature. Hence the Greek is replaced by German or French, or both, at the option of the student, and Latin after the middle of the Junior year, and the higher Mathematics are made optional, their place being taken by additional literary work.

## SELECT COURSE.

Students not desiring to take a full course are permitted, under the advice of the Faculty, to make a selection of the studies they wish to pursue, and to recite with any of the classes for which they are fitted by their previous preparation. In all cases, however, they will be required to take a sufficient number of branches to fully employ their time, unless special provision otherwise has been made with the President by the parent or guardian. They will be required also to be present at all examinations of the classes with which they have recited.

No degree will be granted to those who pursue such a Select Course, but at the completion of their course a certificate will be given setting forth the work done.

While not offering a full Normal Course, special attention will be paid to Normal instruction in order to fit young men and women to teach.

## DEGREES.

The degree of Bachelor of Arts will be conferred upon students who complete the Classical Course; that of Bachelor of Science upon those who graduate from the Scientific Course; and that of Bachelor of Literature on graduates from the Literary Course.

All members of the Senior Class are required to deposit \$5.00 with the treasurer of the college, on their entrance upon the last term of the Course, to pay for their diplomas. In case of failure to graduate, this will be refunded.

---

## TERMS OF ADMISSION.

Candidates for admission to the Freshman Class, in the Classical Course, will be examined in the following:

LATIN.—Latin Grammar; Cæsar, (3 books); Virgil's Aeneid, (3 books); or the equivalents of these.

GREEK.—Greek Grammar; First Lessons; Xenophon's Anabasis, (3 books); or equivalents.

MATHEMATICS.—Arithmetic complete; Algebra through Quadratics.

ENGLISH.—English Grammar; Spelling; U. S. History; General Outlines of History; Descriptive and Physical Geography.

Those seeking admission to the Scientific or Literary Course will be required to pass the same examination as for the Classical Course, except that German will be substituted for Greek.

Applicants for admission to a class higher than Freshman will be examined in all the branches through which the class they propose to enter has already passed.

These examinations will be omitted only when the standings from High Schools, or other preparatory schools, are deemed satisfactory in the studies required. All students having such standings should bring them with them.

---

## ACADEMIC or PREPARATORY DEPARTMENT.

The chief object of this Department is to prepare students for the Freshman Class of Midland College.

Those, however, who do not wish to pursue their studies into the college classes proper, will find here a course embracing all the studies of a thorough English education, together with elementary drill in the classical and modern languages.

Students of this department are admitted to the Freshman Class without examination, upon the recommendation of the Principal.

Applicants for admission to an advanced class of the Academic Department must pass an examination on the studies of the previous year.

## MISCELLANEOUS ITEMS.

### LOCATION, GROUNDS, ETC.

Atchison is one of the oldest and most substantial cities in Kansas. The population is not less than 25,000 and is steadily increasing. Many public improvements have been made during the past year, and still others are in progress. As we go to press work is being commenced on an extensive and very complete system of Electric Street Railways. The city is centrally located for the four great states of Kansas, Nebraska, Missouri and Iowa, and is reached by four of the greatest railroad systems of the West, the Santa Fe, the Missouri Pacific, the Burlington and the Rock Island. Eighty passenger trains arrive at and leave the handsome Union Depot every 24 hours. The city is thus easy of access from every direction.

The College grounds comprise 20 acres in the Highland Park addition, adjoining the city on the South. They have been greatly improved during the past year by grading, planting trees, flower beds, etc. A number of handsome evergreens and ornamental shade trees were donated for this purpose by the Stark Bros. Nursery Co., Louisiana, Mo.

The building is situated on the summit of one of the highest bluffs in the neighborhood. The views in every direction are most beautiful and picturesque, overlooking the city, the winding Missouri, and the rolling country for many miles in every direction. All this will be found highly conducive to health, and to study and general culture.

### EXAMINATIONS.

Three general examinations are conducted each year, one at the close of each term. There is also a special examination in any study when completed. No one is advanced to a higher class, or to a more advanced study, until he has passed the test of an examination. It is very important therefore, that every student should attend all the examinations of his class.

Reports respecting the behavior, diligence, and scholarship of students are sent to parents or guardians at the close of each term, but no standing will be given to those who avoid the examinations.

#### PRACTICAL LECTURES.

During the Fall and Winter terms a course of familiar lectures will be delivered by the members of the Faculty, on such practical subjects as Hygiene, Manners, Methods of Study, Reading, etc. All the students will have free access to these lectures.

#### RELIGIOUS EXERCISES.

Though Midland College is under the special care and patronage of the Evangelical Lutheran Church, (General Synod), it is in no sense a sectarian institution. It is designed, however, to be distinctively Christian, as it is believed that there cannot be any deep culture, nor any truly healthful mental development, apart from a genuine spirit of religion and worship.

Hence all students are required to attend the devotional exercises held each morning in the College Chapel, and also to attend public worship at least once on the Lord's day, at such church as their parents may prefer. In case of no expressed preference, students will be required to worship with the Faculty at the English Lutheran Church.

A college Y. M. C. A. has been organized by the students, which contributes in many ways to their moral and religious welfare. Under its auspices a voluntary prayer-meeting is conducted every Thursday evening, in the College Chapel.

The young ladies have also organized a Mission Band, which meets weekly for conference and prayer.

#### ROOMS AND BOARD.

The College Building has dormitory accommodations for eighty students, two in a room. All the rooms and halls are heated by steam from a common boiler.

All students from abroad are required to lodge in the College Building, unless otherwise permitted by the Faculty at the request of the parents.

The young ladies are all required to room on the second floor, which is reserved for their exclusive use. They are under the special care and supervision of the Matron, who also has rooms on the same floor.

Most of the rooms have been neatly furnished by friends of the institution, and others will be furnished as needed. These rooms have everything needed except bed clothing, (pillows, sheets, covers, etc.) Students occupying them will be charged \$1.50 each per term, for the use of the furniture. They will also be held responsible for the care of the furniture, and will be required to make good any breakage or damage, except from ordinary wear and tear.

Any student refusing to accept the room-mate assigned to him, or her, will be charged double rates for room and furniture rent, and also for steam-heat.

Those who may prefer to furnish their own rooms will be permitted to do so.

All rooms are cared for by the occupants.

Special provision is made for boarding students. For this purpose a steward resides in the building. The price of board has been fixed at \$2.50 per week, or \$1.75 for four and one-half days, from Monday morning to Friday evening. Boarders will furnish their own napkins for use at table.

Students rooming in the building and desiring to board elsewhere, can find suitable places in the neighborhood, but should bring written permission so to do, from their parents or guardian, and present the same to the President.

A study-room will be provided for the use of students not residing in the building, and they will be required to occupy this room during study hours, when not engaged in recitations, except by special permission from the President.

#### EXPENSES.

*The Tuition* in the Collegiate Department is \$14 for the first term of 15 weeks, and \$13 for each of the other two terms of 11 weeks each. In the Academic Department it is \$10 for each of the three terms.

*The Room Rent* is \$3 per term for each pupil for an unfurnished room and \$4.50 for a furnished room.

*Steam Heat* is \$2 for each pupil for the Fall term, \$3 for the Winter term, and \$1 for the Spring term.

Students not rooming in the building will be charged \$1 each per term for incidental expenses, in addition to the tuition.

Washing will cost about \$1.25 per month. Light from 25 cents to 50 cents a month.

From the above it will be seen that the necessary regular expenses for boarding students is from \$150 to \$165 per annum. To this must, of course be added a reasonable allowance for books, and for other incidental expenses.

TUITION AND ALL OTHER REGULAR COLLEGE DUES MUST IN ALL CASES BE PAID IN ADVANCE AT THE BEGINNING OF EACH TERM.

*No money will be refunded except in cases of protracted illness.*

#### MUSIC AND ART.

Arrangements have been made with most competent teachers, to furnish instruction in Music and Art, at the following very reasonable rates :—

Vocal or Instrumental Music, one lesson per week, \$8 for the first term, \$6 for each of the other two terms; or two lessons a week, \$14 the first term, and \$9 for each of the other two terms. Use of instrument for practice \$1 per month for one hour a day; two hours a day, \$1.50 per month.

Drawing, charcoal work, or painting, \$10 per term.

*Payment must invariably be made in advance.*

#### GOVERNMENT.

The government of the Institution is vested in the Faculty, and will, as far as possible, be paternal in character. Very few formal rules of conduct are prescribed, (see page 27) but good behavior and faithfulness in study will be required of each student.

## LITERARY SOCIETIES.

There are two vigorous Literary Societies connected with the College, known as the Kalophronean, and the Wynn. They are composed of young men and young ladies, and meet weekly on Friday afternoon. All students of a suitable age are expected to connect themselves with one of these Societies and participate in its exercises. A Monthly College Journal is also conducted under their auspices.

## MILITARY DRILL.

The young men of the Institution, with the approval of the Faculty, have organized a Military Drill Corps, which meets regularly twice a week for drill in the open air.

## AN ATHLETIC ASSOCIATION

has also been formed, and exercises daily under a competent leader. They have begun a "Gymnasium Fund," to which additions will be gratefully received.

## DONATIONS.

Grateful acknowledgment is hereby made of numerous gifts of money to purchase supplies for the Class-rooms, provide apparatus, etc. for the Scientific Department, furnish rooms, etc.; also, donations of books for the library, specimens for the Museum, etc.

It is hoped that many similar benefactions may come to the college in the future.

## OUR NEEDS.

No better use can be made of money than to found educational institutions, or to help place those which have been founded on a permanent basis and equip them for efficient work. Means used in this way will continue to bless generation after generation of young people, and so will bless the world, and keep green the memory of those who provide them through all coming time. Thus the endowment which has come to us during the past year from the legacy of the sainted Gotwald will prove a more fitting and enduring monument to his interest in the College, and his large-hearted generosity and noble spirit, than any other that could possibly have been reared.

As a guide to others who may be disposed to help Midland College, either by gift or legacy, the following most pressing needs of the institution at this time are named :

1. An endowment of at least \$100,000. \$20,000 will endow a Professorship and entitle the donor to name it.

The Kansas and Nebraska Synods have each undertaken the endowment of one such Professorship. Smaller sums can be credited on one of these Professorships.

2. An additional dormitory building for the exclusive use of young ladies. This is an absolute necessity. It should not cost less than \$10,000.

3. A Scientific Hall for the Scientific Department. Need not cost over \$2,500.

4. A Gymnasium costing from \$500 to \$1,000.

5. Furniture for 10 rooms in the present building, every one of which will be needed next Fall. It requires \$50 to furnish a room which will be made memorial to the donor, or to any one named by the donor.

6. Books for the Library ; Chemical and Physical Apparatus for the Scientific Department ; Specimens for the Museum, etc., etc.

In case of doubt, correspond with the President.

#### FORM OF BEQUEST.

IN BEQUESTS care should always be taken to use the *correct and full corporate title* of the College, and also to state clearly the amount of the bequest, and any special use for which it may be designed. The following general Form of Bequest is recommended :

I give, devise and bequeath to MIDLAND COLLEGE OF THE GENERAL SYNOD OF THE EVANGELICAL LUTHERAN CHURCH IN THE UNITED STATES OF AMERICA, located at Atchison, Kansas, and to its successors, and assigns forever, the sum of \$....., [or if real estate describe accurately], the same and the proceeds thereof, to be held by them and applied to the Endowment Fund of said Midland College ; [or if for other purposes, state clearly].

## RULES AND REGULATIONS.

1. The use of tobacco in any form whatever is positively forbidden on the College premises.

2. The rising bell will ring at 6:30 A. M.; breakfast bell at 7 A. M.; and evening study bell at 7:30 P. M.

3. The hours of recreation will be from 7 to 8:45 A. M.; from 12 M. to 2 P. M., and from 4 to 7:30 P. M. During all other hours students are expected to be either in their classes or in their rooms, or the study hall.

4. Students who do not room in the building are required to study in the rooms allotted for that purpose, except by special permission.

5. All students are required to be present at Chapel exercises at 8:45 A. M.

6. Students will be held responsible for any damage done to furniture, or to the building, or for any defacement of the College building or out-buildings.

7. All social intermingling of the sexes shall be limited to stated times and occasions arranged by the Faculty and under the special supervision of the Matron.

8. Interviews by couples shall take place only in the Parlor and by permission of the Matron.

No young lady shall be visited in her room by a young gentleman student under any circumstances whatever, on penalty of immediate expulsion of the young gentleman, and fitting discipline for the young lady.

9. In general, young gentleman and young lady students will be expected to observe due courtesy both in their intercourse with each other and with the members of the Faculty, and to conduct themselves in a manner becoming students in a Christian College.

10. A system of Demerit Marks has been adopted, the demerits to be imposed by the Faculty for unexcused absence from recitation, or tardiness in reporting for recitation, and also for disorder in the class rooms, or any other misdemeanors.

When five of these demerits have been imposed, the student will be warned; when ten have been imposed, the parents will be notified; and if fifteen are incurred in any one year the student will be expelled from the school.
